At the K/O Mountain River Lodges, we pride ourselves in being one of the finest Bear Camps and Outfitting Services in the business and work hard to keep up the excellent reputation we have obtained over the last 38 years. We spend much of our time not only working with our guests, but in research as well, to ensure that each and every hunter is given every possible advantage in the pursuit of their trophy. Our huge, private leased territory above the north & east of Algonquin Provincial Park allows us to draw giant bruins from over 1200 square miles. This, along with our conservation practices, have given us one of the highest success rates in Ontario. This region has the most concentrated Black Bear population in North America today. This is the Eastern Great Lakes Boreal Forest.

Our new guests are treated to an in-depth video orientation on how our hunt works and the movements and patterns of bears in the wild. This question and answer time will give a hunter an added advantage, from judging the size of the bear, knowing their diet and how they interact with man and other wildlife.

Our hunts are done in the afternoon and into the evening (we fish and skin bears in the mornings,) over baited sites with a mix of ground blinds and tree stands. Each hunter is matched to his stand based on physical abilities, preferences, and the weapon of choice (rifle, bow, muzzleloader, or cross bow.) We have multiple stands per hunter in camp, allowing us to suit your individual requirements. Our Guides will drive you to your hunting area, set you up and stay nearby for early tracking. After you are set, we will continue to make sure there are plenty of active swing baits to move to. There is no secret to bear hunting -- it just takes plenty of miles on the track, fresh bait, and long hours in the environment we enjoy. We do appreciate good company, and I look forward to having you in Camp this season!

Yours in Hunting,
The Carlins - TWC
